Yonas Tedela

Software Engineer

SUMMERY ------

I hold an MSc in Software Engineering from HeLCoE, specializing in advanced software development methodologies and technologies. Additionally, I completed a Full Stack Web Development program at Evangadi Networks, where I gained expertise in both front-end and back-end development, as well as in Android Fundamentals from UDACITY. My education also covered database management and deployment strategies, equipping me with the skills to develop complex software and robust websites.

EDUCATION ---

Data analysis fundamentals
UDACITY/Mountain View, CA/2024
Certified in Data Analysis Fundamentals from Udacity, with proficiency in extracting meaningful insights from data and performing statistical analyses. Skilled in applying data-driven methodologies to solve real-world problems.

Android developer fundamentals
UDACITY/Mountain View, CA/2024
Certificate in Android Development Fundamentals from Udacity. Proficient in designing, developing, and deploying Android applications with a strong foundation in Java, Kotlin, and Android Studio.

Fullstack web developer (MERN)
Evangadi Networks/Washington D.C /2024
I have completed a Full Stack Web Development program from Evangadi Networks. I have taken courses in HTML, CSS, Node.js, Express, SQL, and React, and I am currently working on my project.

MSc in Software Engineering
HiLCoE / Addis Ababa /2023
Master of Science (MSc) in Software Engineering from the HiLCoE School of Computer Science.

Bridging program for Software Engineering
HiLCoE / Addis Ababa /2020
I successfully completed a bridging course that prepared me to pursue an MSc in Computer Science or Software Engineering

SKILLS ---

I have strong skills in programming languages including C++, Java, Kotlin, JavaScript, TypeScript, Node.js, PHP, Python, Dart, Swift, SQL, and PL/SQL. I'm also proficient in web development technologies like CSS, HTML, React, Express, Next.js, jQuery, Bootstrap, and Tailwind. Additionally, I have experience with mobile technologies such as Flutter, SwiftUI, Android Studio, and React Native.

Experience ---

Experienced full-stack and mobile app developer with expertise in Java, JavaScript/TypeScript, React, React Native, Next.js, SQL/NoSQL databases, and modern UI/UX design. Skilled in building responsive web and mobile applications, managing end-to-end projects, and delivering high-quality, user-friendly digital solutions.
